Professional Summary

Backend Software Engineer with 4.8 years of experience designing and developing scalable backend applications, enterprise integrations, workflow automation platforms, and production-ready APIs. Experienced in building CRM/ERP integrations, asynchronous processing pipelines, monitoring systems, and reusable integration frameworks using Node.js, TypeScript, Express.js, PHP (Phalcon), MongoDB, Redis, BullMQ, Docker, and AWS. Proven track record of delivering enterprise solutions across eCommerce, Healthcare, CRM, ERP, and Business Automation domains while improving system reliability, observability, and operational efficiency.

Technical Skills

Languages: PHP, TypeScript, JavaScript
Backend: PHP (Phalcon), Node.js, Express.js
Databases: MongoDB, Postgres, Redis
API & Integration: REST APIs, GraphQL, Webhooks, OAuth 2.0, JWT Authentication
Cloud & Infrastructure: Docker, AWS (S3, SQS, DynamoDB)
Asynchronous Processing: BullMQ, Queue-based Processing
Enterprise Platforms: HubSpot, Microsoft Dynamics 365, Microsoft Business Central, WooCommerce
Developer Tools: Git, GitHub, Postman

Education

Amity University, Lucknow <i>Master of Computer Applications</i>	2019 – 2022 <i>Lucknow, India</i>
Lucknow University <i>Bachelor of Science (Mathematics and Computer Science)</i>	2015 – 2018 <i>Lucknow, India</i>

Professional Experience

CedCOSS Technologies Pvt. Ltd. <i>Associate Software Engineer</i> MakeWebBetter	Jan 2022 – Aug 2026 <i>Lucknow, India</i> <i>Jul 2024 – Aug 2026</i>
---	---

- **HubSpot Microsoft Dynamics 365:** Developed and maintained bidirectional synchronization between HubSpot and Microsoft Dynamics 365 using Node.js, TypeScript, REST APIs, OAuth, configurable field mapping, and webhook-based workflows.
- **DataScraper:** Built asynchronous data aggregation workflows integrating Google Places API and ATTOM API using Redis and BullMQ.
- **MWB Connect:** Developed and maintained connectors, resolved production issues, implemented enhancements, and supported enterprise client integrations.
- **HubSpot Integrations:** Developed integrations with Microsoft Business Central, Legistify, Nextech, Boulevard, and 4D EMR using REST APIs, OAuth, JWT authentication, and webhooks.
- **Platform Maintenance:** Worked on production support, connector enhancements, monitoring improvements, deployments, and issue resolution.

CedCommerce	<i>Jan 2022 – Jul 2024</i>
--------------------	----------------------------

- **Amazon Buy with Prime Integration with Meta Ads:** Developed backend features using PHP (Phalcon), MongoDB, Redis, and REST APIs supporting marketplace operations.
- **Shein Marketplace Integration:** Contributed to product synchronization, inventory management, pricing updates, and category mapping.
- **GL Mall:** Implemented JWT Authentication, Product Import, Product Settings, and Product Category Association modules.

Key Achievements

- Delivered multiple enterprise integrations across CRM, ERP, healthcare, and eCommerce domains, including HubSpot, Microsoft Dynamics 365, Business Central, Legistify, and workflow automation platforms.
- Designed reusable integration frameworks, configurable field mappings, and asynchronous processing workflows that accelerated development and reduced implementation effort across multiple client projects.
- Improved production reliability by implementing monitoring, workflow inactivity detection, anomaly reporting, infrastructure optimization, and proactive alerting, significantly reducing manual operational effort.
- Collaborated with cross-functional teams and enterprise clients to troubleshoot production issues, contribute to architecture discussions, and deliver scalable backend solutions from design through deployment.
